

## Communicable Disease Guide for Schools and Child Care Settings

*Updated August 2014*

[cchealth.org/cd/cd-guide](http://cchealth.org/cd/cd-guide)

### **What is the Communicable Disease Guide?**

The Communicable Disease Guide is an online resource containing fact sheets for facilities and parents about a variety of infectious diseases, as well as information for disease prevention and control. It contains handy information on diseases (like chickenpox) and nuisance conditions (such as lice) commonly encountered in school and child care settings.

### **Who is the Communicable Disease Guide for?**

Information is intended for parents, childcare providers, and school health staff.

### **Where can I find the Communicable Disease Guide?**

The Contra Costa Health Services Website at [cchealth.org/cd/cd-guide](http://cchealth.org/cd/cd-guide). The entire guide can be found online and will be monitored and updated. Feel free to print the documents from the Communicable Disease Guide to create a disease compendium for your school or child care facility.

### **Who should I contact with questions?**

Contra Costa Public Health  
Communicable Disease Programs  
Phone: (925) 313-6740  
Fax: (925) 313-6465
