REPORT:

On October 13, 2017, at 7:29 AM, CCHSHMP received a notification from Con Fire dispatch that Con Fire was responding to a vehicle accident on Interstate 80 westbound at West Pinole Valley Road in Pinole, CA. Initial reports were that a 75 gallon diesel tank on a truck was leaking at a rate of 1 gallon per minute. The release began at 7:15 AM. Cal Trans and CHP were also on scene.

The trucking company's consultant ERTS reported the spill to California OES (spill report 17-7465). At approximately 8:00 AM, HMS Dwight spoke with Dragana Tomic of ERTS. Ms. Tomic indicated that a clean up contractor, Patriot Environmental, had been hired and would be on scene in approximately 2 hours.

At 8:14 AM, HMS Williams and Pham mobilized to the scene in HM1. HM1 arrived on scene at 8:33 AM. The team started up both a CGI and PID for air monitoring.

CCHSHMP met with the Incident Commander, Officer Eric Hulbert of California Highway Patrol, and representatives of Rodeo-Hercules Fire, Engine 75. Caltrans workers had already applied several bags of granular absorbent, and the saddle tank was observed continuing to drip diesel. Caltrans had previously requested a contractor to complete the clean up, but the contractor would be delayed by several hours. A tow truck was en route. All air reading were normal in the spill area.

At 9:00 AM, HMS Williams met with Dale Hatt of Caltrans. The decision had been made that Caltrans would complete the clean up with the staff on scene. CCHS HMP provided Caltrans with two bags of granular absorbent as requested to aid in the clean up. The Caltrans team began sweeping and containerizing the spill materials.

At 9:20 AM, Jack James Truck Rescue arrived on scene. Plug and Dike was applied to the damaged diesel saddle tank.

At 9:35 AM, HMS Williams discussed the remaining clean up work with Dale Hatt. Caltrans agreed to continue clean up efforts downstream from the damaged saddle tank, and then to clean directly below the spill once the tow truck could move the vehicle.

HMS Williams and Pham departed the scene at 9:54AM and arrived at the CCHS HMP office at 1016AM. A rehabilitation of HM1 then was conducted.

Additional Required Items: Bill of Lading, Request for Invoice, and Site Safety Plan
