6. 3:40 Expanding the Mission Statement and Goals of the Capital Facilities Committee to include MHSA Oversight and Accountability *Action Item*

Discussion at the June MHC meeting that led to this agenda item: *“Consider expanding the Mission Statement and Goals of the Capital Facilities Committee to include MHSA Oversight and Accountability.”* By way of background, Peggy explained the need for oversight and that instead of having another committee established, it was decided to have the Capital Facilities Committee handle this issue. The opinion was given that this oversight cannot be done at the MHC level because there is no technical support other than what comes from the MHA. Capital Facilities Committee Chairperson Teresa explained that statutorily we

have the obligation to know things and work with MHA. We are not taking this responsibility over, but there will be some local processes changes that we already have oversight over. We are expected to have oversight, and this would give the MHC a chance to be more focused and objective than by sitting on CPAW-like committees. It would be beneficial for the MHC to have a specific committee to consider MHSA. It was suggested that look at the Bylaws as the MHC has review responsibilities and there is a difference between review and oversight and accountability. There was discussion about changing the wording to include review and to stress the need to have the data and information from MHA. Peggy said her understanding is that we would have a relationship with MHA to get the information and utilize it to do the review and recommendations. Same said we should have had the current MHSA Plan well in advance of this meeting. Teresa said the comments that had been made actually made the case for the committee, since we would work collaboratively to get this information in a timely manner. Commissioners commented about the Plan being overwhelming and they wished they had had more time to read it. Carole would like to see this be its own standing committee next year, but for now agreed with putting it under Capital Facilities Committee. _Vote: By a unanimous vote of 7-0, the Commission agreed to expand the Mission Statement and Goals of the Capital Facilities Committee to include MHSA Oversight and Accountability for the remainder of this year.
