

Contra Costa Health Plan **Interpreter Services for Community Provider Network (CPN)**

CCHP's interpreter services are **NOT** for hospitals or hospital systems, only for contracted private providers and clinics. Hospitals and Skilled Nursing Facilities must use their own contracted interpreting vendor.

Interpreters are HIPPA certified and trained in medical and mental health issues; therefore the interpretation process is simple, professional and confidential.

Tips for Providers

1. When contacting CMU for your initial authorization, be sure to specify that you agreed to use interpreter services for the specific consumer.
2. Similarly, in the “Strategies” section of your Partnership Plan, clearly document the client’s language and the need for interpreter services, and request authorization for the 90837 billing code.
3. Use of the 90837 code is applicable to family or individual therapy
4. Use of the 90837 code is limited only to sessions where an interpreter is used.
5. For sessions during which interpreter services are used, document the interpreter’s name and identification number. If you or your clients experience any difficulties with the service, this information can be reported to CMU.
6. Check your rate sheet for the reimbursement rate for the 90837 code. You will need this when you submit your claims.
